

Ashton Bentley Collaboration Solutions for DTEN

Chassis mounts for DTEN.

Floor-to-Wall Chassis designed to work seamlessly with DTEN All-in-One units,

- Tool-less assembly
- Simple to mount DTEN unit
- Magnetic acoustic panel front covers for easy access to concealed equipment space
- Covers available in 16 colours to match any interior
- Internal power distribution & cable management

D7 and D7X

DTEN D7X Dual 55"

Base Options

The standard chassis must be tethered to a wall (brackets supplied). As load is on the floor, the wall should not require re-enforcement. However, there are optional Bases that can be attached to the Chassis that provide flexibility.

Freestanding

No building work required. Ideal for locating in free space or against a glass wall

Mobile

Complete location flexibility

ME Pro Huddle.

Designed specifically to enable the simple deployment of a DTEN ME Pro as a complete integrated collaboration solution.

- Ergonomic 3 seat table, optimised for video
- Fixing points for ME Pro
- Concealed cable containment
- USB-C Input Retractor
- Integrated USB-C breakout box for flexible connectivity
- Power socket (regional)
- USB charging socket
- Optional leg castors for mobile solution

ME Pro Features:

InclusiView

DTEN InclusiView utilises the DTEN ME's proprietary 3-camera array to cover participants seated within an 160 deg arc. Automatically adjusts to movement in the room, or if new in-room participants join the meeting.

The resultant video feed provides true face-to-face interactions for remote team members, resulting in more meaningful and natural-feeling meeting experiences.

InclusivZone

DTEN's latest InclusivZone combines 2 sought out technologies:

Video boundary: users can set the video capture zone for auto frame / smart framing

Audio Framing: suppress audio when the user is not present in a pre-set camera area (60 deg angle scope). This is supported on DTEN ME & DTEN ME Pro devices

Available Finishes.

TX2/DX2

Two-box Table-to-Display system that replaces the usual rack of AV equipment found in most meeting rooms.

Extend USB-C & HDMI from the table to a D7 or D7X, which provides simple connectivity for both presentation and BYOD.

Features:

- Extend USB-C & HDMI up to 35m
- Video ingest at the table
- Camera extension
- Provides 2 x Aux HDMI Inputs
- Remote management & diagnostics
